SOHO Residence

WHERE THE HEART OF ISTANBUL BEATS

Soyak Soho, a 77 unit residential project with a view of the Bosphorus, is designed to place residents within reach to all aspects of city life. Residents are strategically positioned to be close to commercial districts, Istanbul's most prestigious shopping center, entertainment, and the most beautiful neighborhoods of Istanbul all at the same time.

Soyak Soho is in an unparalleled location; living here means you have quick access to both main bridges, the metrobus, sea transportation, the Gayrettepe Subway Station, and the new Istanbul Airport subway line, making it possible to go anywhere in the city within a few minutes.

Soyak's most special project in its 58 years of construction is for those who want to live in the most central location in Istanbul while distancing themselves from the stress of the city.

EXCEPTIONAL DESIGN

With its outstanding design and exclusive use of only the best quality materials, Soyak Soho consists of 3-bedroom duplex penthouses, 2-bedroom apartments, and 1-bedroom duplex apartments.
